THE ANSWER TO GETTING YOUR EMPLOYEES TO WORK IS HERE.

VanStar solves transportation issues for employers. Working with you, we develop rideshare programs for employees. We want your employees to always have an economical, easy-to-use and timely way to get to and from work.

RIDESHARING IS A GROUP OF RIDERS AND DRIVERS WHO TRAVEL A SPECIFIC ROUTE IN A SHARED VEHICLE AT A SPECIFIC TIME.

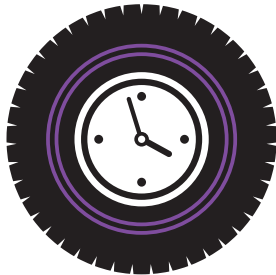

WHEN YOU CONSIDER ALL THE BENEFITS, IT'S EASY TO SAY YES TO A RIDESHARE PROGRAM.

A rideshare program is easy to set up and can be implemented in a few weeks. Employees determine the travel route. So it's easy for employees to start or join a route. The cost to your company is low. In most cases, there's no cost. A rideshare program projects a green image for your company. And it's a benefit that employees can take advantage of right now.

WE PROVIDE THE VAN FOR YOUR RIDESHARE PROGRAM INCLUDING FULL INSURANCE, MAINTENANCE, A GUARANTEED RIDE HOME AND POSSIBLY DISCOUNTED FUEL.

VanStar has everything online for you to administer your rideshare program. Through a secure web portal employees can do everything they need to start or join a route.

Employees simply input their starting and ending locations. Routes and availabilities appear with beginning, pick-up and ending locations and times. The routes even show other riders.

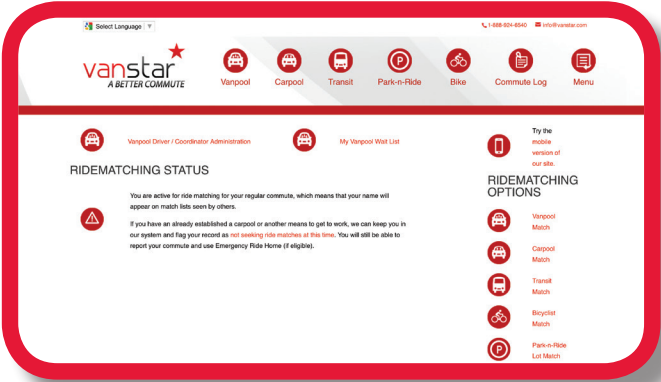

If there is no current route, then the employee can contact VanStar staff and create one. The system will pool a group of riders together or the route will be held until enough riders join.

The secure site also provides your company with data on savings to employees and reduced emissions as a result of your ridesharing.

HERE'S WHAT RIDERS SAY.

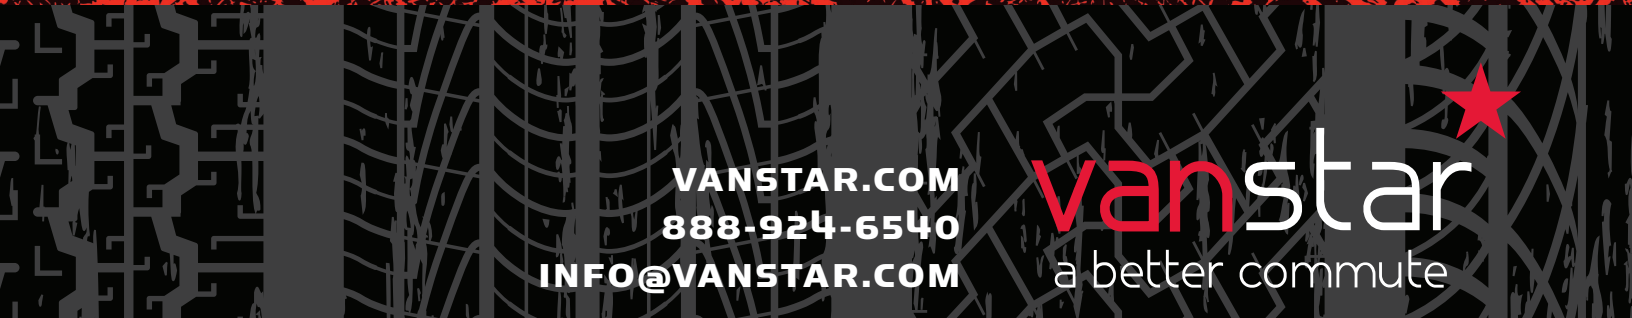

"My husband and I commute from Columbia to Nashville. We were spending \$500 monthly in gas. We also needed frequent oil changes and new tires every 2-3 years. Parking at work was \$35 a month for me and \$50 for my husband. With VanStar, our MONTHLY FEE is \$50.00 per person for the entire month, only \$600 a year! Also, our insurance company cut our premium because we rideshare. We save approximately \$7,100 a year."

"I was in a desperate situation when the transmission went out on my vehicle. Then I found a vanpool that went from Murfreesboro to Nashville. Thank you, VanStar! I've made friends in my vanpool. Now my commute is time with friends, companionship, catch a nap, and of course, save money and wear and tear on my personal vehicle."

"Watch our video and you can see and hear what people are saying for yourself. Visit VanStar.com and get on the road to your own vanpool."

Ridesharing reduces employees' commute costs. It helps employers attract and retain the people they need. It's a valuable benefit to everyone involved. It even helps protect our environment.
